I am Joan Estevan Uribe, a bilingual individual fluent in English and Spanish, a proud Marine Corps veteran with 5 years of experience as an Aircrew Chief on the MV-22B. After my service, I focused on personal development, completing a certificate in computer studies and currently pursuing a degree in computer studies. I possess a high level of adaptability, fast learning skills, and can work both independently and collaboratively. My attention to detail and competitive nature allows me to thrive in high-pressure situations. Additionally, I have a strong desire for continuous learning and am always eager to ask questions to broaden my knowledge.

Skills

- HTML
- CSS
- Javascript
- Bootstrap
- jQuery
- Wordpress
- JSON
- Figma

I possess a strong foundation in web development with expertise in HTML, CSS, and Bootstrap. I have also gained experience with SASS and have applied this knowledge in several projects. My proficiency in JavaScript, jQuery, and jQuery UI enables me to create dynamic and interactive webpages. I have a solid understanding of Wordpress and how to navigate and modify files using Cyberduck. Furthermore, I have been introduced to React and Node.js and continue to expand my knowledge by taking additional courses to enhance my skills.

Experience

United States Marine Corps/ MV22-B Aircrew Chief - CPL

July 2012 - July 2017

As an aircraft maintenance and servicing professional, I ensured the readiness of squadron aircraft by performing in-flight troubleshooting and aiding pilots in mission completion. In addition to teaching basic and LAT crew chief responsibilities, I held multiple qualifications in maintenance, crew chief instruction, weapons, and leadership roles. As a maintenance supervisor, I effectively managed priorities and assigned qualified personnel to complete necessary maintenance while communicating status updates to higher management. My exceptional communication skills, teamwork, and problem-solving abilities were developed through my experiences as a mentor, instructor, leader, and follower, all of which helped me excel in my duties.
